

GRADUATE STUDENTS

The Department of Design now offers a Master of Arts in Human Experience Design Interactions (MA_HXDI).

Students interested in the MA_HXDI program must first apply to, and be accepted by the University. After which, additional application materials will be required to be submitted through an online platform for review by the department graduate admissions committee. Through this competitive process, a cohort of students will be selected based on diversity of skills, experiences and potential to perform successfully in an intensive, full-time, face-to-face design program.

Once admitted into the Department of Design, students will enroll in required graduate courses. Please see the MA_HXDI Flow Chart and the [CSULB Catalog](#) for specific course requirements and descriptions. For more detailed information see the [MA_HXDI policy statement](#).
